

ADDING RAIN INSURANCE TO YOUR PORTFOLIO

The weather can ruin more than an event. It can also damage a business's reputation. Vortex Weather Insurance helps protect events or businesses from adverse weather conditions. It's a simple addition to your portfolio that can bring you some major benefits.

RAIN INSURANCE FOR ANY OUTDOOR EVENT

Vortex can insure any event against rain. From celebrity golf tournaments to music festivals to softball games to local fairs, you can create a custom policy that fits your customers' needs. Your customer wants to insure an outdoor concert in Dallas against a quarter inch (0.25") of rainfall? You got it.

HOW IT WORKS (HINT: IT'S VERY EASY.)

It only takes 3 pieces of information to produce a quote.

EVENT LOCATION

Using localized data from the National Weather Service allows for extremely accurate rainfall statistics to develop quotes and for claim determination.

TIME WINDOW

Select the hours for the entire event, the event's most profitable hours, the hours leading up to the event, or any combination of hours that best fits the customer's financial needs.

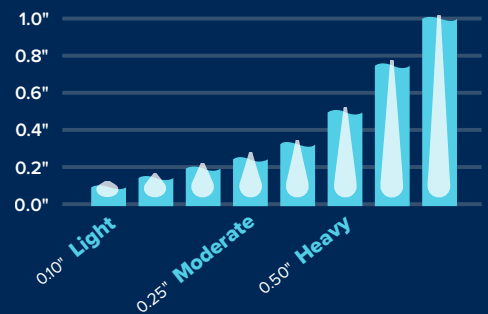

INSURANCE LIMITS

Decide on how much or how little insurance is needed. Insuring to value is not necessary.

COMMONLY REQUESTED RAIN OPTIONS

Policies are designed using the total amount of rainfall within the window requested.

Use this simple graph to see the difference between light and heavy rain.

PRODUCER BENEFITS

- On-demand pricing. Instant binding. Instant document generation. Back-office support. Speed of claim payment.
- Vortex rain policies are short-tail policies. No need to check in. No claim paperwork. No proof of loss.
- Once you close the sale, you're done. If a claim occurs, Vortex handles it.
