

What's Your Plan When Weather Hits Your Event?

It can slow down - or seriously impact - your business.

The Problem:

Traditional Insurance Can Leave Gaps

One day of rain = Thousands in lost ticket and on-site sales.

20% chance of rain = 100% financial exposure

The Solution:

Parametric Rain Coverage

- Coverage for weather-driven losses, not just cancellations
- Choose your rainfall trigger (starting as low as .01")
- Coverage for specific hours (for example, 5 p.m.-11 p.m.) or a full day
- If the agreed weather trigger is met, coverage responds automatically with a defined payment based on independent weather data
- Typical payout timing: about 7 days

Event Types

- ✓ Festivals
- ✓ Fairs
- ✓ Concerts
- ✓ Holiday Light Shows
