BY **VORTEX** WEATHER INSURANCE

Turn Rain Into Revenue at Your Outdoor Events

When planning outdoor events like music festivals, fairs, or golf tournaments, the weather can be a significant concern. But rain doesn't have to mean ruin anymore. **With RainSure, you receive payouts that grow with every 1/100th inch of rain up to 100% of your insured limit.**

It's a breakthrough in **peace of mind** and **profit protection**. And it could be a **guaranteed rain check**.

How It Works

With RainSure, if ANY measurable recorded rainfall ($\geq 0.01"$) during the policy period occurs, a predefined percentage of the coverage limit pays out.

Examples

\$10,000 Insurance Limit for:	Policy Structure	Rainfall	Total Payout
.25" Rainfall Policy	<p>This policy pays out in full (\$10,000) if the recorded rainfall during the policy period measures ≥ 0.25".</p> <p><i>But what if it doesn't rain that much?</i> That's where RainSure comes through! This model would still pay 4% of the coverage limit for every .01" of rain during the policy period. In this example, if the recorded rainfall is .16", the payout would be \$6400.</p>	.01" =	\$400
		.03" =	\$1200
		.15" =	\$6000
		.16" =	\$6400
		.20" =	\$8000
		.25" =	\$10,000
.50" Rainfall Policy	<p>This policy pays out in full (\$10,000) if the recorded rainfall during the policy period measures $\geq .50$".</p> <p>Or, this policy pays 2% (\$200) of the coverage limit up to 100% for every .01" of recorded rainfall during the policy period up to the aggregate (\$10,000).</p>	.01" =	\$200
		.02" =	\$400
		.16" =	\$3200
		.20" =	\$4000
		.45" =	\$9000
		.50" =	\$10,000
1.0" Rainfall Policy	<p>This policy pays out in full (\$10,000) if the recorded rainfall during the policy period measures ≥ 1".</p> <p>Or, this policy pays \$100 for every .01" of recorded rainfall during the policy period up to the aggregate (\$10,000).</p>	.02" =	\$200
		.15" =	\$1500
		.50" =	\$5000
		.62" =	\$6200
		.74" =	\$7400
		1.00" =	\$10,000

Avoid the Worry of "Did It Rain Enough?"

- ✓ Partial payouts that can cover lost revenue or even the premium amount
- ✓ Flexible coverage limits and thresholds
- ✓ No adjusters or lengthy claims process
- ✓ Payouts usually sent within 2 weeks
